Suggestions for Human Freedom Index

- I propose presenting this resource in a dashboard format

  - Multiple tabs: Main Tab, Country Profiles, About, Downloads, etc.

- I believe the "meat" of the website should be front and center

  - Main Tab for the most important visualizations: global map, summary table, etc.

  - Current introductory text could be moved to the **"About"** tab/section

  - accompanying data to the **"Downloads"** tab/section
